

Intro to Data Visualization for the Web

Me:

Huston Hedinger

Founder at @GraphAlchemist

T: @hstnhdngnr

GH: @hustonhedinger

What is data visualization?

Why are you here?

Why am I here?

This course:

- 4 Saturdays
- Repo: <https://github.com/hustonhedinger/IntroToDataViz>
- 4 Parts:
 - Theory
 - Code
 - Workflow
 - Project

Today:

10-11: Intro + intros + Tufte

11-12: Intro to d3.js and svg

12-1: Using selections to manipulate the DOM +
intro to callbacks

1-2: “Lunch”

2-3: Databinding, what it is + intro code challenge

3-4: Manual Lima + Intro to Yeoman

4-5: Final Projects: pick groups, white board ideas

Tufte

break?

Part 1: Intro to d3.js and SVG

Selections

[/course/week1/examples/selections](#)

Basic Selection Methods

selection.attr

selection.classed

selection.style

selection.property

selection.text

selection.html

selection.append

selection.insert

selection.remove

Basic Selection Methods

`selection.attr` - get or set attribute values.

Basic Selection Methods

`selection.classed` - add or remove CSS classes.

Basic Selection Methods

`selection.style` - get or set style properties.

Basic Selection Methods

`selection.property` - get or set raw properties.

Basic Selection Methods

`selection.text` - get or set text content.

Basic Selection Methods

`selection.html` - get or set inner HTML content.

Basic Selection Methods

`selection.append` - create and append new elements.

Basic Selection Methods

`selection.insert` - create and insert new elements before existing elements.

Basic Selection Methods

`selection.remove` - remove elements from the document.

Basic SVG Shapes

<rectangle>

<circle>

<line>

<text>

<path>

Basic SVG Shapes

The g element

<g>

Basic SVG Shapes

Intro to Callbacks in d3.js

Intro to Callbacks in d3.js

d3.text

d3.json

d3.html

d3.xml

d3.csv

d3.tsv

Intro to Callbacks in d3.js

d3.text - request a text file.

Intro to Callbacks in d3.js

d3.json - request a JSON blob.

Intro to Callbacks in d3.js

d3.html - request an HTML document fragment.

Intro to Callbacks in d3.js

d3.xml - request an XML document fragment.

Intro to Callbacks in d3.js

d3.csv - request a comma-separated values (CSV) file.

Intro to Callbacks in d3.js

d3.tsv - request a tab-separated values (TSV) file.

Data Binding in d3.js

More on “joins in d3.js: <http://bost.ocks.org/mike/join/>
More on the d3 update pattern: <http://bl.ocks.org/mbostock/3808218>
